PROCEEDINGS OF THE CITY BOARD OF TRUSTEES

Resolution of Intention Adopted to Build Sidewalks and Curbs on Linden Avenue---Other Matters

The city board of trustees met in regular weekly session last Monday night.

A communication was received from John Brown of San Francisco asking about improvements to be made at Peck's lots.

Upon motion of Hickey, seconded by Cunningham, Clerk Smith was authorized to acknowledge receipt of the communication and state that the board had no jurisdiction in the matter.

A communication was received from County Auditor Underhill stating that no money had been collected by the county from the Southern Pacific Company, Pullman Car Co. nor the Union Tank Line Co. for taxes due this city. The city would have to make its own assessments.

The communication was referred to Tax Collector Kneese.

The following claims were allowed: Hermann Gaerdes, fifty feet water

hose, \$6.50; League of California Municipalities dues, \$10.

Trustee Healy introduced a resolution of intention to improve Linden avenue by putting in concrete curbs and stone sidewalks.

Upon motion of Hickey, seconded by Cunningham, the resolution was adopted.

The advertisement appears in another column of this issue.

A petition signed by sixty-four electors asking the board to call a special election at which citizens of this city and adjoining territory can vote on a proposition to annex to this city the territory commonly called the Smelter site was received and a resolution adopted calling the election.

The notice of election advertisement appears in another column.

The resolution was introduced by Trustee Cunningham.

The delinquent tax list was ordered published in THE ENTERPRISE.

Meeting will open for members at 2 p.m.

A large crowd attended the automobile races at Tanforan last Sunday and Monday. It was not learned how much money was netted for the first township road fund for the benefit of which the meet was given. An illustrated Tanforan Site circular showing the advantages of Tanforan as a site for holding the great Panama-Pacific Exposition was circulated thoroughly and created favorable comment.

JOSEPH H. NASH

The canvass of the candidates for party nominations in San Mateo county progresses in a lively but entirely amicable manner. May it so continue to the end. For the office of County Clerk but one contestant has appeared on the Republican side. The nomination is conceded to Joseph H. Nash, incumbent.

Joe Nash has such a following and holds such a strong place in public esteem, that his nomination has been assured from the beginning and it matters little who the opposition names we believe that the election of Joe Nash is just as sure and certain as is his nomination.

The town was filled with strangers on Sunday and Monday. Many of them were local lot owners, who announced they intended building during the coming year.

Neighbor J. M. Custer attended the dance Saturday night. He was also conspicuous in the front row at the Orpheum the same week. His neighbors should caution him not to be so giddy and gay.

wards, candidate for justice for first township, and F. A. Cunningham of South San Francisco, and Fieldon W. Waggoner of San Mateo, candidate for county surveyor.

The mother of Harry and Dave Leslie was stricken with paralysis this morning at her home here. Dr. Smith was called in and immediately had her sent to San Francisco. Her recovery is doubtful.

Court records this week show that all cases and judgments against Geo. A. Hensley, R. A. Smith, A. T. Green, Hensley - Green Co., and Hensley Realty Co. have been dismissed, the same having been satisfied. There are no judgments now against San Bruno property, brought about by A. T. Green and Attorney Phil Strubel.

Roy Young, a barber, 29 years of age, employed at 2892 Sixteenth street, San Francisco, dropped dead Thursday morning in the barber shop about 10 o'clock. He fell suddenly to the floor. He was the son of Mr. and Mrs. Young of this town and a native of New York.

A delightful event took place last Tuesday evening at 7:30 o'clock at the residence of her mother, when Miss Florence Madden of this place was joined in holy wedlock to Lloyd Newman of Oakland by Rev. Little Valeria Anderson, aged 6 years, acted as Cupid. The young couple were married under a bell composed of orange blossoms. The wedding march was played by Miss Kyth. The residence was beautifully decorated with sweet peas and white lilies. The newly wedded pair left for Oakland at 10 p.m., where they will make their home.

The Acme Club gave a very delightful and successful dance at the Town Hall last Saturday evening. The hall was comfortably crowded. Many from South San Francisco, Vista Grande, Brookville and Colma participated. The Club membership is growing apace and bids fair to be the leading entertainers of our town. The headquarters will be established in the Hudson house, which is being remodelled. It will be the star of attraction for the many good times now under consideration by the officers and members.

The school trustees have at last awarded the contract to build an incomplete school house to R. S. K. Mc-

FOURTH OF JULY AT REDWOOD CITY

Arrangements are progressing favorably toward giving a record Fourth of July at Redwood City this year. The general committee, Geo. W. Lovie, chairman, is doing trojan work in an endeavor to make the celebration a grand success. A large delegation of people should attend from this city, San Bruno and the entire north end. It was intended that this city would celebrate the Fourth this year, but it was conceded to Redwood City, on account of the completion of the new courthouse. South San Francisco will probably get up a monster celebration next year.

The literary and musical program at Redwood on the Fourth will be on new lines. Reading of the Declaration of Independence also the traditional long oration, will be noted for their absence. Instead there will probably be three short talks by forceful, practical speakers, and patriotic selections by a choir of 500 voices and vocal and cornet soloists.

CURTISS WINS THE
\$10,000 PRIZEFlies from Albany to New York
City Without Accident

Glenn H. Curtiss flew from Albany to New York city in an aeroplane on May 29th, winning the \$10,000 prize offered by the New York World. He covered the distance of 137 miles in two hours and thirty-two minutes, and came to earth as calmly and lightly as a pigeon. His average speed for the distance—54.06 miles an hour—surpasses any other record made by aeroplane in a long distance flight, and, in its entirety, his feat perhaps eclipses anything man has attempted in a heavier-than-air machine.

Faster Than Paulhan's Trip.

Paulhan's flight from London to Manchester—186 miles—exceeded the Curtiss feat in distance, but not in

danger. The Frenchman's average was 44.3 miles an hour, and below him lay English meadowland. Curtiss followed the winding course of the historic Hudson, with jutting headland, wooded slopes and treacherous palisades. He swung high over the great bridge at Poughkeepsie, dipped at times within fifty feet of the river's broad surface, and jockeyed like a falcon at the turns.

The report of the naval board which investigated the recent accident on the cruiser Charleston whereby eight sailors lost their lives, has been received at the Navy Department. It confirms fully the theory advanced by the ordnance officers in Washington as to the cause of the accident, namely, that a bent or broken firing pin exploded the fulminate, though it appears that the breach-block was partly engaged before it blew out, as some of the threads were stripped. The accident is regarded as unavoidable, so there will be no further proceedings.

TELLS BRITONS THEIR DUTY

Gives Advice on Control
of Egypt That Involves
Him in Sharp Comment

Quite unexpectedly in London Theodore Roosevelt delivered what is considered by Englishmen as a severe arraignment of the nation in its attitude toward Egypt. Something picturesque was looked for from the former President of the United States, but, in view of his utterances in Egypt, in which he gave praise in full meas-

ure to the British Government for the development that followed British rule there, it was not expected he would revert to that subject, especially to take England to task.

But, with a frankness that caused a stir among those who had gathered in the ancient Guild Hall to witness the ceremony of conferring upon him the freedom of the city of London, Roosevelt declared that while England had given Egypt the best government in 2000 years, recent events, following the assassination of Premier Boutros Pasha, had shown that in certain vital points the British Government had erred, and that England must repair this error if she wished to do her full duty.

Criticism of English Causes Surprise.

Roosevelt's speech at the Guild Hall is the sensation of newspapers throughout England. The editorial comments on his startling utterances concerning British rule in Egypt were influenced, as a rule, by partisanship. The Conservative press defends the conclusions drawn by the American statesman, while the Liberal papers oppose his deductions with equal seriousness.

But outside the questions of fact set forth the newspapers, almost without exception, challenge the propriety of a foreign guest of the city criticising the colonial policy of the empire.

Guest of English Editor.

Theodore Roosevelt and Lord Cromer, British agent and consul-general in Egypt from 1883 to 1907, were guests at a dinner given by John St. Loo Strachey, proprietor of the Spectator, in honor of Mr. Roosevelt. Roosevelt and Lord Cromer are believed to be perfectly agreed on Egyptian politics.

Colonel Roosevelt will go to Colonel Arthur H. Lee's country place, where Sir Harry Hamilton Johnston, who has written much on Africa; John Burns, president of the Local Government Board; and Captain Robert F. Scott, Antarctic explorer, also will be guests. He will spend Sunday at the home of Sir George Trevelyan, where he will meet Viscount Morley of Blackburn.

Egyptian Editors Denounce Roosevelt.

The Nationalist editors of Egypt are execrating Roosevelt with picturesque Orientalism. Sheikh Ali-Youssef, one of the journalists Roosevelt received at Cairo, denounces him in his newspaper, Al Moayad, as a tyrant full of gall, a diabolical man and a blood-thirsty butcher. Al Moayad is regarded as a moderate paper among the Nationalists.

The Coptic newspapers welcome Roosevelt's dicta as golden texts.

Peary Meets King George.

Commander Robert E. Peary has been presented to King George at Marlborough House. He remained a half hour, telling his Majesty something of his achievements and discussing the prospects of Captain Scott's Antarctic expedition.

ENGLISH AVIATOR
MAKES NEW RECORDCrosses Channel to France and
Returns Without Stopping

Charles Stewart Rolls, Captain in the London section of the army motor reserve, driving a Wright biplane, vindicated the Anglo-Saxon aeronautics by crossing the English channel twice on June 2d without alighting. He made the round trip between Dover and Calais in ninety minutes.

While two Frenchmen, Louis Bleriot and Count de Lesseps, have crossed the channel in an aeroplane, it remained for an Englishman in an American machine to perform the double feat. The distance across the two points is twenty-one miles, so that his over-water flight of forty-two miles without a stop establishes a new record.

Captain Rolls left Dover at 6:30 o'clock. Atmospheric conditions were excellent. He lost no time in maneuvers, but, after describing a circle, headed toward the coast of France. In anticipation of the flight, torpedo boats steamed at full speed across the straits, but the pace of the aeroplane was swifter.

Captain Rolls sent his machine to a height of 800 feet, and at that altitude he skimmed through the air like a great bird. The motor worked perfectly. The crowd that watched the start confidently awaited the return, and it was not long before the speck, which those who had telescopes saw disappear on the French coast, reappeared, growing larger with every minute.

When finally the aviator became visible to the naked eye, cheers arose from the spectators, and as he soared toward the landing place made famous by Bleriot he was given a demonstration. He alighted at 8 o'clock at almost the same spot as Bleriot, showing little signs of the strain of his magnificent flight.

Captain Charles S. Rolls of the London second army motor reserve has successfully followed the sports of bicycling, automobiling, ballooning and aeroplaning. He has made more than 160 balloon ascensions. Taking up the sport of heavier-than-air machines, he made a flight with Wilbur Wright at Lemans in October, 1908.

South San Francisco Land and Improvement Co.

FOUNDERS OF THE CITY OF SOUTH SAN FRANCISCO

THE SOUTH SAN FRANCISCO LAND AND IMPROVEMENT COMPANY designed in its original plan to make of South San Francisco a great manufacturing center. With that object in view, it originally purchased 3500 acres of land in San Mateo County, on the bay front, five miles south of the City of San Francisco. Since the original purchase, the company has added greatly to its holdings by the purchase of large tracts of adjoining lands, giving to it a perfect environment for the complete development of a great manufacturing city.

The faith which this Company had in its enterprise has been manifest to everyone by the large expenditure it has made in the development of this property. Every foundation which goes to make a perfect condition for manufacture has been already solidly installed, and

SOUTH SAN FRANCISCO

is a rapidly growing city; it is a railroad terminal; it is on the main line of the Southern Pacific Railroad, and accessible to all railroads; has deep water communication; owns and operates for its industries a railroad connecting with the Southern Pacific and the water front; has electric street car service from factory to Town, and direct to San Francisco; has an Electric Light and Power Company; owns an independent Water Works, and has an abundance of fresh water for factory and house; has wharves and docks; a perfect sewerage system; a Bank and a Town Hall; and a population of over 3000 people an extensive and fine residence district, where everyone may secure lands at reasonable prices and on favorable terms, as homes for themselves and their families.

FACTORY SITES

can be obtained from the South San Francisco Land and Improvement Company on most reasonable terms.

The completion of the Bay Shore Tunnels has placed South San Francisco on the main lines of the Southern Pacific Railroad, and forty passenger trains per day connect it with the outside world.

With the completion of the Dumbarton Bridge and Cutoff, now rapidly being constructed, South San Francisco will have all railroads which center in San Francisco passing through its midst.

Many industries are already established here, chief of which are the Western Meat Company, the Wool Pullery, the Soap Works, the Baden Brick Company, Pacific Jupiter Steel Company, the Steiger Pottery Works, the W. P. Fuller White Lead Works, the South San Francisco Lumber and Supply Company, and other enterprises, all of which are in full operation to-day. The American Smelting and Refining Company has purchased over 300 acres of land in South San Francisco for the purpose of erecting a great plant, which they estimate will cost upwards of \$5,000,000. The Doak Sheet Steel Company has purchased a large tract of land and has already commenced the construction of a large rolling mill. Other factories have recently made purchases, and South San Francisco is plainly destined to fulfill all that its promoters had hoped.

Millan of Crocker Tract, whose bid exceeded Mr Weeden's of Menle Park by \$1700. Other conditions relative to material and labor were the important factors which favored McMillan. Trustee Jenevein held out to the last in favor of Mr. Weeden, irrespective of the conditions. Owing to the costly excavation and cement restraining walls together with the ill-advised architectural plans of a structure far in advance of the demands of the district, the bond issue will fall short several thousand dollars of completing the building.

San Pedro Terrace is the Mecca by the sea according to the statement of A. A. Green who has been spending a few days listening to the billows of the ocean. About 200 campers on a vacation were disporting themselves on the beach. The weather was perfect and bathing was indulged in. Blackberries grow in profusion on the hillsides. On the shore can be found innumerable mussels and abalone, which are prized by the visitors and taken home in large quantities as trophies of an enjoyable outing. The permanent residents are somewhat elated over the rumor which seems to be substantiated that an overall factory will be installed soon, using a wave motor for the power. Mr. Green has caught the trend of their hopeful desires and may invest in the project as the proposition looks good to him.

Neighbors seeking Leandro Hernandez, a prosperous rancher of Lancaster, Cal., who had been missing several days, found him dead amid the wreckage of his house, which had been looted by robbers. There were four bullet wounds in the body. Hernandez, who was unmarried, was known to have kept a large sum of money in his house. None of this could be found by the searchers, and the condition of the house indicated that the slayers had ransacked it from roof to floor.

ESTRADA ROUTS BESIEGERS

Defeats Lara and Forces the Battered Army to Retreat.

A dispatch received at the State Department at Washington, D. C., from Captain Gilmer, commanding the Paducah at Bluefields, states that General Lara had been defeated by the Estrada forces and was in full retreat with the remnant of his army, numbering about 300 men.

With the exception of these 300 men the only forces that Madriz has on the east coast is a detachment on Bluefields bluff, about six miles east of Bluefields city, and a force estimated at not exceeding 1000 men facing General Mena, the Estrada commander, at Rama. It is pointed out that General Estrada, with his victorious army, without hindrance could go to Rama and, joining forces with General Mena, readily disperse the Madriz army in front of that city.

It is conjectured that Lara's course of retreat will probably be down the coast to Monkey point, where his men might avoid capture by boarding the Venus; but in any event, it is believed the evacuation of the east coast is the only alternative open to Madriz to avoid the destruction of his armies.

Before a crowd numbering close to 10,000—an attendance greater than any ever attracted by even a championship struggle in the southern end of the State—May Sutton, woman tennis champion of the world, defeated Hazel Hotchkiss, champion of the United States, in their match game at Los Angeles.

BIG PRIZES OFFERED TO CONTESTANTS

\$30,000 for Flight from New York to St. Louis

The New York Times announces that it has arranged with J. C. Shaffer of the Chicago Evening Post for an offer of \$25,000 for an aeroplane race between Chicago and New York.

Thirty thousand dollars was offered to the first aviator who flies in an aeroplane from New York city to St. Louis, or from St. Louis to New York. Mayor Gaynor announced the prize at the Hotel Astor, where Glen H. Curtiss, who on Sunday wrote a new chapter in the history of aviation by making a flight from Albany to Governor's island, was the guest of the New York World, whose \$10,000 award he won. The prize is offered by the New York World and St. Louis Post-Dispatch. Conditions governing the flight will be announced after a conference with aeronautic experts.

A distinguished company gathered to meet the young aviator. At the table the modest Curtiss sat between the Mayor and Brigadier-General Walter Howe, United States Army, in command of the Department of the East.

AERIAL BOMBARDMENT NEXT

Hired by Government to Make Practical Tests.

At the military tournament to be held by the United States troops and the militia of several States at Chickamauga Park, near Chattanooga, Tenn., from June 22d to 24th, the Government has engaged Charles K. Hamilton, the aviator, to conduct the most extensive practical experiments in aerial reconnaissance and bombardment ever attempted. He will carry aloft from 200 to 300 pounds of highly explosive nitroglycerin bombs.

Racing at a speed varying from 45 to 55 miles an hour, he will release this deadly cargo while at a height of a quarter of a mile above the earth, raining it down upon targets in the two-mile-square area below in 75 installations. The targets underneath will consist of dummy fortifications, batteries, arsenals, bridges, trains and troops.

Previous to Hamilton's performance he, in company with Lieutenant Benjamin Foulois of the Signal Corps, in a Wright biplane, and other Army officers in a war dirigible, will participate in the maneuvers of the troops as aerial scouts. During the four days of the war game there will be intricate evolutions and several grand sham battles. Foulois, with a Wright biplane, will be attached to one army as an observer, while Hamilton will be connected with the other.

Steel Merger in Canada.

Negotiations that have been pending at Hamilton, Canada, for several months have resulted in the formation of a Canada Steel Company, capitalized at \$25,000,000. It is recognized as the first move in a mammoth merger which will eventually control every steel manufacturing plant in the Dominion. Hamilton is to be the headquarters of the company.

SAN FRANCISCO PRODUCE MARKET

Latest Conditions and Prices of Seasonable Products of California

FRUIT—The hot days that closed May ripened cherries so that the markets are well supplied and the finest black varieties and Royal Anne bring 50¢@75¢ a box here, but higher in Los Angeles. Apricots are increasing, but sizes are small and with poor flavor, moving slowly at lower prices, 50¢@75¢ a box for ordinary lots. The few fine apricots received bring \$1@1.25. The larger size will be in great demand by canners and the open market will get but few. The quality of peaches is improving with ripening weather and the best sell at \$1.25 a box, with common as low as 50¢. Cherry plums are in fair supply, but move slowly at 75¢ a box. A few boxes of Clyman plums have brought \$3.50@4 a crate.

BERRIES—Everywhere the berry bushes have suffered from the extremely hot days of May 28-30 and berries have ripened prematurely and flavorless. There are some fine berries arriving and these are cleaned up at good prices, a previous scarcity giving a favorable market. Strawberries, Longworths, sell at \$4@6 a chest; Malindas \$1 less. Loganberries are very plentiful and lower at

\$3@3.50. Blackberries and raspberries at \$6@7 a chest. Gooseberries are \$4@6 a chest, currants \$4.50@5.50.

VEGETABLES—All kinds of vegetables are abundant and generally at prices that secure heavy sales. Asparagus has been damaged by hot weather and the best sells at \$1 a box, with most of it in an unsalable condition. String beans are abundant at 2¢@3¢ a lb., wax at 3¢@5¢. Green peas at 75¢@1 a sack are plentiful. Rhubarb drags at 50¢@85¢ a box. Green corn is fairly abundant from Brentwood at 20¢@30¢ a dozen; other points, 15¢@25¢. New potatoes are in heavy supply at \$1@1.25 a sack; old of all kinds range from \$1 downward with large receipts.

DAIRY PRODUCE—The needs of one house on last Saturday forced prices of butter extras up to 30¢ temporarily, but at the next session of the Dairy Exchange on Tuesday this dropped to 27¢ and has remained near there for the week following. There is a deficiency of about 200,000 lbs. in storage in this city, just equaling the shortage of shipments to the city for the season, last summer. For May there has been only the normal receipts here and the demand from up the Coast has absorbed goods that otherwise would have been stored. Though prices have seemed high here they have been under any other market in the country and the range of 25¢@30¢ in San Francisco for the past month have been below the average at other points.

Fancy California cheese has ruled steady at 14¢ for flats for two weeks.

EGGS AND POULTRY—The ruling price of 26¢ for California fancy eggs at present has jumped to 28½¢ on two days when some house needed them to fill orders, and there has been heavy storage at the lower prices, which fact is likely to bring an advance, along with the gradual decrease of production.

Poultry brings from 17¢@18¢ a lb. in Los Angeles and the dozen prices here come to about the same, as Eastern stock sells here at that price, under heavy receipts.

COMMOTION NEAR BERLIN

Attack Causes Belief That Bomb Had Been Thrown.

There was a commotion among the royal party returning from the annual joint review of the Berlin and Potsdam garrisons at Tempelhof field when a man who had followed at a distance hurled a missile at Crown Prince Frederick William. The object missed its mark and fell harmlessly at the feet of a policeman. It was found to be an ordinary tin can and was filled with uncooked beans. The party was about to enter the palace at the time, and for a moment it was believed a bomb had been thrown.

The police seized the assailant, who proved to be a Russian named Abraham Elerweiss, a resident of Berlin.

SPORTS AND ATHLETICS.

Glenn H. Curtiss will probably be a competitor for both the New York-St. Louis and New York-Chicago aviation prizes, according to an announcement. "I don't see a single reason why both flights should not be made by me," said the aviator, "and I predict if the conditions are right the prizes will be won before the summer is over. There certainly will be a Curtiss machine in the contest, in charge of either myself or one of my men."

Dr. W. M. Green, an aviator of Rochester, N. Y., will attempt on June 21st to fly from Rochester across Lake Ontario to Toronto, Canada. He will use a biplane of his own design and manufacture. The distance is about eighty-six miles. Fast boats will relay across the lake under the aviator.

August Belmont was thrown from his horse while playing polo at the Meadowbrook Hunt Club, New York. There were rumors that he had been seriously injured, but at his house it was said that he had only been severely shaken up, and would be about as usual in a day or so. At the Meadowbrook Club it was said that he had broken a wrist.

Jockey Fred Langan, mounted on Stalwart Lad, was instantly killed at Gravesend, Eng., when his mount fell on the home-stretch turn in the closing race. The race was for two-year-olds at five and a half furlongs and thirteen horses faced the barrier. The start was good and the field went off in a close bunch to the stretch turn,

where Warwick, butted up, stumbled and fell. Muff, Davis riding, stumbled over Warwick. Immediately following was Langan on Stalwart. He turned a complete somersault over the prostrate forms of the two horses and his mount fell on top of him, killing him instantly.

Thousands of salmon have been taken during the past week in Monterey bay, on the Monterey side. These fish run from ten to twenty pounds and are evidently in from a far-out journey in the ocean.

FOREIGN NEWS OF INTEREST

Penalties of death or life imprisonment have been meted out to the men and women members of the youthful band in Russia, that for eighteen months during 1907-1908 committed a series of murders and robberies that kept the residents of a considerable territory in a state of terror. Twenty-nine men ranging in age from 18 to 25 years were sentenced to death.

The British Antarctic expedition set sail from London on June 1st. Captain Scott has announced December, 1911, as the date for his arrival at the South Pole.

An oil trust to monopolize the sale of petroleum produced in Russia is being formed at Baku. The producers propose to operate in the guise of a selling agency, which will be affiliated with a syndicate of oil tank and shipping concerns.

Inspection by divers of the sunken submarine Pluvioise, which was in a collision with the cross-channel steamer Pas de Calais last Thursday, shows conclusively that the hull of the submarine was crushed and that all of the members of the crew, which totaled twenty-seven men, were drowned. The heavy undertow and the great depth at which the wreck lies are retarding the operations of the divers, who are only able to work two hours each tide. It has been found impossible to raise the sunken craft to the surface, so the submarine will be attached by chains to pontoons, after which, at each high tide, she will be towed in nearer shore until shallow water is reached.

Further examination of the United States dry dock Dewey, which is partly submerged at Olongapo, in Subig bay, has strengthened the belief of those of the Navy who have held that the damage was done deliberately by a band of conspirators against the

Government. However, it is now learned that the valves had not been opened as first declared, although they were found to have been leaking a little. This leakage would not have caused the trouble and the dock sank more rapidly than would have been the case had all the valves been opened and no other opening made.

CRIMES AND CASUALTIES

Four hundred kegs of powder were prematurely discharged in the quarry of the Union Portland Cement Company near the "Devil's Slide," in Weber canyon, eight miles east of Morgan, Utah. Seventeen laborers are missing and it is believed all were killed in the explosion.

Charles Chiften, who, on the 14th of last March, shot and killed Night Watchman George Whybark at Santa Clara, was sentenced by Judge Richards of San Jose to imprisonment for life. He betrayed no emotion, and, upon being questioned as to his identity, informed the court that his true name is Walter Owsley; that he is 22 years old, a native of Hickory county, Missouri, and that he had been in this State only seven months.

James Avery, a young convict, serving a five-year sentence at San Quentin for burglary committed in Sonoma county, has made a confession to Warden Hoyle of that penitentiary that he murdered a man in a boxcar near Spokane on October 22, 1906. From an investigation of the confession at Spokane, it has been found that the facts surrounding the killing were as the San Quentin prisoner related them. The victim of the murder was never identified, and it is possible, because of that fact, and that there is no corroborative evidence against Avery he may never be tried for the crime.

TEN RULES THAT LEAD TO SUCCESS FOR AN EMPLOYEE

1. Take as much interest in your employer's business as if were your own.
2. Do not expect to get all you can and give nothing. Do a little more work than is demanded.
3. Be prompt. Show that you have an interest in your work above a desire for an extra half-hour in bed in the morning. You can't come down a half-hour late every morning and impress your employer with the idea that you are a wideawake active man or woman with an interest in your work.
4. Do your work well to-day, you won't have to do any of it over again to-morrow.
5. Be cheerful and willing. A sullen countenance is not pleasant to look upon by either employer or customer. Remember your pulling power with a customer is one of your assets. The reverse will be your loss. Be courteous. Do not thrust your own troubles and inharmonies upon those around you. It is a poor investment.
6. Be conscientious. Don't take too much interest in ball games, theaters, parties, etc., or you may find that you have not much time left to give to your work. Don't have a relative die too often. Funerals sometimes grow monotonous to an employer during the baseball season or on matinee afternoons.
7. Do not make the same mistake twice.
8. Do not let your thoughts be always wool gathering if you expect to earn an increase of salary on pay day.
9. Do not shirk your work, and be always thinking of the money side of the proposition. Give good value for the money you receive, and you will be sure to succeed.
10. Put yourself in your employer's place and figure out what kind of an employee you would hire to get the most out of your business. Then set yourself to try to be that employee.

There is no short, easy road to success, but it is well worth traveling.

NOT DEAD YET

A month ago a well-known firm in the drug business received a letter from a western man saying that in repairing an old water tank in his house he

had found on the top of it one of their almanacs—date 1872. He had looked through it and noticed that they advertised a certain tonic for a complaint from which he happened to be suffering. If they still made this tonic and had a bottle of it for sale, he wanted it sent to him at once. He got the tonic—and the firm sent his letter to an advertising symposium on "When Does Good Advertising Die?" with the remark that this 1872 specimen was evidently not dead yet.—Forward.

"The successful man is the one who is least elated at what he has achieved, least depressed by what he has failed to achieve."—President Hadley of Yale.

"Climb up to what you want. Plums grow on trees, and you never get them if you wait for some fellow to come along and boost you."

"Who learns and learns, but acts not what he knows, is one who ploughs and ploughs, but never sows."

"Often do the spirits of great events stride on before the event, And in to-day already walks to-morrow."
